Madison Plumer, Location Manager at the Gavilon Grain Elevator (VITERRA NETWORK) will be the presenter. This elevator location is rail served and the presentation will explain how the facility operations works and how it may relate for you to model a grain elevator operation.

It is getting harder, because of insurance concerns to visit railroad facilities and rail served operations. Here is an opportunity to see and hear about elevator operation from the comfort of your easy chair. Don't miss this presentation.

NOTE: Recording permission of this presentation has not been given at this time.
