November is National Model Railroad Month, and we usually discuss a topic from the NMRA Achievement Program. This November's topic will be the "Electrical" category. Dan Brewer, Greg Buelmann and others will talk about the requirements and preparation to qualify for the Electrical certificate. You can prepare for the meeting by going to the NMRA Electrical category website link at:

<https://www.nmra.org/electrical>

The Statement of Qualifications Form (SOQ) can be found at the bottom of the Electrical page. This is your chance to ask questions about any of the AP categories too.

Next month on Saturday December 21st, the Division is planning a couple of layouts tours. Currently Chuck Hart's N Scale Pacific Central & Eastern is confirmed. The PCE is in a ground level 24' x 36' building. More information will be included in the December Bulletin.

Please send articles, news items, photos and comments to the Editor of the Michiana Division FORM-19 Newsletter, Chuck Hart, email: chart7968@yahoo.com by December 15th to be included in the January 2025 Winter issue of the FORM-19 Newsletter.
